AIREX BEAM SEATING

AIREX SERIES

The **Airex Beam Seating Terminal Bench Seat** is a heavy-duty, all-metal seating solution engineered for high-traffic public environments where strength, longevity, and easy maintenance are essential. Built with a robust steel frame and a sleek powder-coated silver finish, it delivers outstanding durability while maintaining a clean, modern appearance. Ideal for airports, laundromats, mine sites, construction companies, medical centres, schools, and correctional facilities, it offers dependable performance in demanding settings. The option to bolt the frame securely to the ground enhances stability and prevents unwanted movement, making it a safe and reliable choice. Available in versatile 2-, 3-, 4-, and 5-seater configurations, it provides flexible layout solutions for any waiting area. This bench is designed to handle constant use with confidence.

PRODUCT FEATURES

Design & Construction

- ❖ Durable and easy-to-clean metal seats with arms at either end of the beam
- ❖ Super strong and rigid, designed and manufactured for commercial applications
- ❖ Seats come in 2, 3, 4, and 5 Bench Seats, made from rolled steel and then polished
- ❖ Seats have stylish perforations to provide a unique designer look
- ❖ Arm and leg frames are steel with a chrome-coated finish
- ❖ Beam section is top-quality steel, powder-coated silver
- ❖ The larger beams are made in two pieces and bolt together once onsite

Installation & Customisation

- ❖ Optional bolt down brackets are available with fixings
- ❖ Beam seating is all dispatched flat-packed. Assembly is simple, and instructions are available. If you want your order to be assembled, please advise us when you place the order, and a quote will be arranged.
- ❖ The Airex Beam Seat is supplied standard with arms on each end of the beam. Additional arms can be ordered and installed between any seats across all beam sizes, including 2-, 3-, 4-, and 5-seater configurations. Every seat position allows for an arm to be fitted, providing complete flexibility in customising layouts to suit individual requirements.

Capacity & Warranty

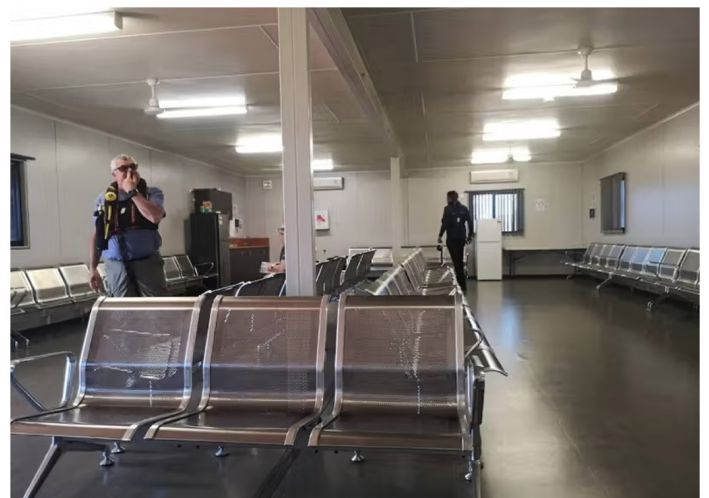

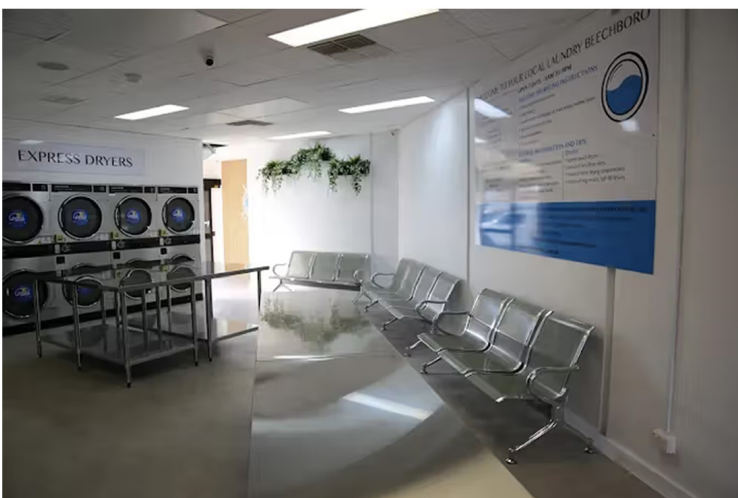

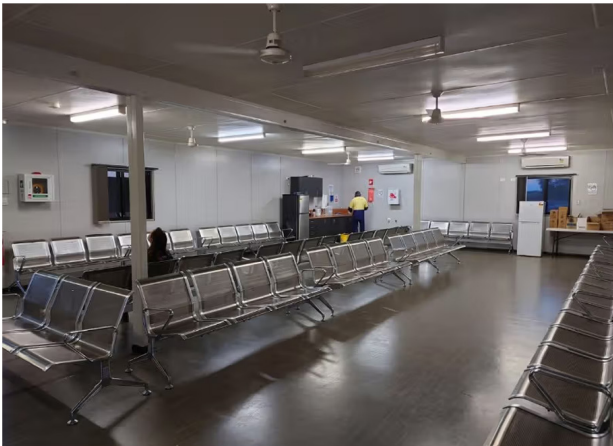

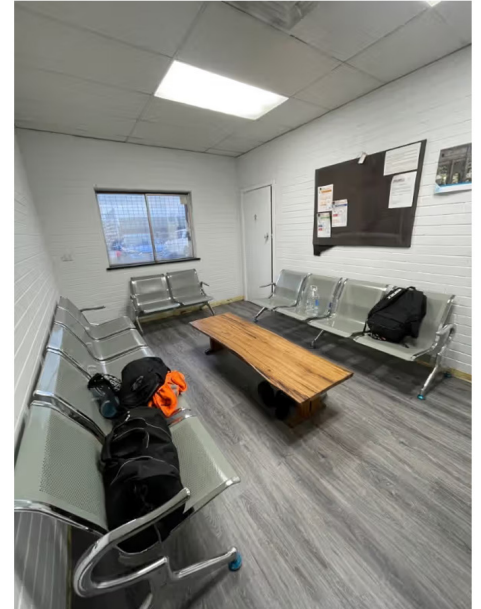

- ❖ 150kg static weight rating per seat
- ❖ 12-year factory structural warranty*
