VECTOR BEAM SEATING

VECTOR SERIES

The **Vector Beam Seating** 2, 3, 4 & 5 Seaters delivers a modern, durable, and highly functional seating solution designed for busy public environments that demand long-lasting performance. Built with hydraulically molded metal arms and legs, a heavy-duty metal beam rail, and high-density poly seats made from antibacterial materials, it provides exceptional strength, comfort, and hygiene in healthcare, commercial, and institutional spaces. The washable seat shells ensure easy maintenance, while the powder-coated finish enhances resistance to wear across high-traffic areas. With configurations from two to five seats, optional bolt-down brackets, and custom color combinations available to order, this versatile beam seating system adapts seamlessly to a wide range of layouts. Every seat is rated to 150kg and backed by a dependable 12-year factory warranty.

PRODUCT FEATURES

Construction & Materials

- ❖ Arm & leg made from Hydraulically Moulded metal
- ❖ Seat is High-Density Poly Shell Construction
- ❖ Seat is made from Anti-bacterial material and perfect for use in Healthcare situations
