VANGUARD CHAIR ASSEMBLY GUIDE

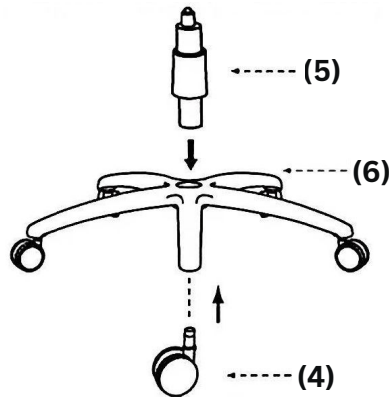

bdo furniture

www.bdofurniture.com.au

Assembly Instructions

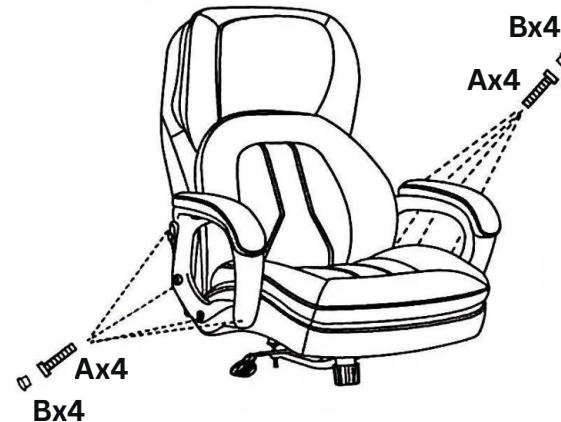

STEP 1

Attach the casters into the chair base, push them in until you hear a click. Position the gas lift into the chair base and slide the plastic gas lift bellow (cover) onto the top of the gas lift.

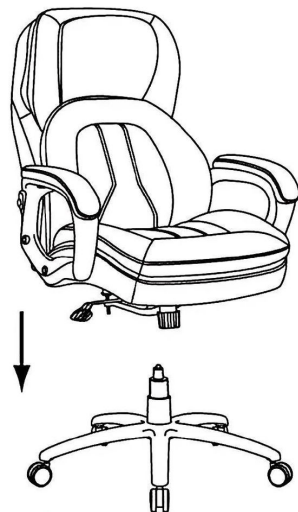

STEP 2

Attach the armrests onto the chair using the bolts (A) first followed by the arm caps (B) please make sure the bolts are firmly tightened.

STEP 3

Lift and place the chair onto the gas lift, making sure the gas lift goes into the hole on the mechanism. You may require 2 people to do this.

STEP 4

Sit on the chair and adjust the bodyweight tensioner to the correct setting so when you lean back on the backrest it doesn't move too quickly which can be dangerous. Please check bolts regularly to ensure they are tight and secured.

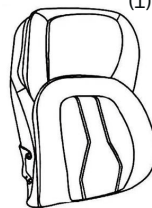

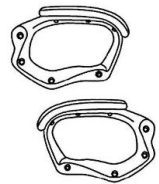

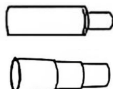

Enjoy your Vanguard chair!
